

# Internationally known Beatle historian to appear at Village of Eastridge

## It was fifty years ago

when the Beatles rocketed onto the music scene. And it was 25 years ago when Benchmark Builders began building homes in Delaware. On Sunday, October 13 at 1 PM, these silver and gold anniversaries come together at the *Village of Eastridge*, near Smyrna in Kent County, Delaware, with a special presentation by internationally known Beatles authority Joel Glazier. The third in a series of special events celebrating Benchmark Builders' 25<sup>th</sup> Anniversary, Glazier will present his popular illustrated narrative, *The History and Impact of The Beatles* featuring little-known stories and anecdotes connected with the rise of the Fab Four.

As speaker with the Delaware Humanities Forum, Glazier has earned a reputation for being the

foremost expert on the Beatles, lecturing on the Fab Four around the world, including the annual Beatles Fans Convention in Liverpool, England.

1963 saw the release of the Beatles first two LPs, kicking Beatlemania into high gear. Over the rest of the decade the band changed not only the music of a generation, but its culture – and its counter-culture – changes that continue to be felt today. Glazier's insightful lecture explores why, even after 50 years, the Fab Four's cultural impact remains strong.

In conjunction with the event, *The Village of Eastridge*, a Benchmark

*Joel Glazier*

Builders 55-plus community of single-family homes, will be hosting an open house before and after the presentation. The complimentary event will take place in the model home located at 11 Felix View Court, Smyrna, DE 19977.
